

As we informed you in our last email, the J.F. New and Spicer Group have completed studies on Paw Paw Lake and are ready to share results and make recommendations.

The two townships (Coloma Township and Watervliet Township) Boards will hold a joint meeting on May 19th at 7:00 p.m. at the Coloma Township Hall.

This is an open meeting, as required by law when boards gather. HOWEVER, this presentation is for the purpose of informing both boards of the results and recommendations. It is not the open meetings that will be held this summer when the boards decide to move forward with the Special Assessment District. The Board Members will have opportunity to ask questions. There will likely be an open statement session at the end, but limited.

Mary and Rick
